

## HYDRATION and OXYGENATION

“All living matter is made up of cells. A single human being has as many as the stars in a galaxy, about one hundred thousand million. The various cells – e.g. muscle cells, kidney cells and nerve cells – act together in an intricate system in each one of us.” - *Swedish Academy of Sciences, Nobel Foundation*

In 2003, the Chemistry was awarded to two scientists whose discoveries clarified how salts (ions) and water are transported out of and into the cells of the body.

Through these discoveries, Nobel Laureates Peter Agre and Roderick MacKinnon contributed to fundamental chemical knowledge on how cells function to hydrate the body.

“They have opened our eyes to a fantastic family of molecular machines: channels, gates and valves all of which are needed for the cell to function.” - *Swedish Academy of Sciences, Nobel Foundation.*

These stunning discoveries in chemistry clearly demonstrate the way a human cell hydrates, one water molecule at a time.

Quantum Age Water Stirwands™, through a natural non-invasive technology, transforms water to a nearly perfect balance for the human cell.

Through innovative water analysis research and hydration testing by Melonie Montgomery of Fenestra Research Labs (see panel 4), we've discovered the required balance of water chemistry that accomplishes the above criteria of hydrating and oxygenating human cells with single water molecules flowing freely into every cell.

## WATER MEETS ITS PERFECT MATCH

Until now, even medical science hasn't been able to create a natural sustainable solution for raising levels of hydration, oxygenation and cellular detoxification. Yet proper hydration is critical to every bodily function.

Stirwand™ technology raises all three of these critical health factors to therapeutic levels, by simply drinking the standard daily recommended amount of water, which is half your body weight in ounces – water stirred for 20 seconds with a Stirwand™

Continued use will maintain these therapeutic levels, consistently saturating every cell with oxygen to optimize the action of the body's many regulatory and cleansing systems.

In our third set of clinical trials completed in December 2007, Stirwand™ technology produced a 10.25% increase in blood oxygenation in 14 days, a 28.5% increase in hydration within 30 days and an 18.2% reduction in cellular toxins in 90 days.

The Stirwand™ works effectively, naturally, quickly, inexpensively

Water is an essential nutrient that is involved in every function of the body.

Substantial testing shows that Stirwand™ technology balances and stabilizes the chemistry in virtually any potable water.

## WHAT IS HYDRATION?

Hydration is a mathematical measurement of the fluid levels in the body. The more hydrated you are, the more efficiently you transport nutrients and hormones, and flush toxins.

## WHY IS HYDRATION IMPORTANT?

Water transports all substances inside the body. It is the main solvent for vitamins and minerals. A well-hydrated system:

- Delivers nutrients to the cells
- Delivers oxygen to the cells efficiently
- Increases blood oxygen levels
- Removes waste materials from the cells
- Helps to remove toxic material from liver and kidneys
- Is critical for efficient function of energy-generating cycles
- Provides electrical energy for brain function
- Is required for the synthesis of neurotransmitters
- Can reduce depression, stress and anxiety
- Can restore normal sleep cycles
- Increases the efficiency of the immune system
- Is required for the production of hormones
- Can reduce PMS symptoms
- Helps to regulate ocular pressure
- Helps to regulate adhesion index of blood cells
- May reduce risk of heart attacks and strokes
- Is necessary for all digestive functions
- Can prevent constipation
- Reduces the skin's signs of aging
- Aids in weight loss
- Enhances joint flexibility and strength
- Enhances athletic performance

## THE FACTS REVEALED ABOUT WATER and optimally hydrating the human cell

Through human clinical trials, Quantum Age Water proves that drinking water balanced naturally with Stirwand™ technology is as vital a source of oxygen for our cells as is breathing oxygen through our lungs.

Clinical Blood Microscopy

**Blood O<sub>2</sub> 88% | 7 Days O<sub>2</sub> 95%**

In 14 days, drinking stirred water, twelve microscopy subjects averaged a 10.25% increase in blood oxygen.

Within 30 days, drinking stirred water, fifty subjects averaged a 28.5% increase in hydration over baseline.

At ninety days, drinking stirred water, fifty subjects averaged an 18.2% increase in cellular toxin release, with no measureable change found in the control group.

## Understanding Hydration

- from Melonie Montgomery, Fenestra Research Labs

“About 8 years ago, I began creating a cellular analyzer to take the guess work out of the Wellness information being widely quoted within the health care field. I gathered all of the information modalities which had become standard in the industry proven to indicate health concerns before they became health problems.

This has resulted in the Optimal Wellness Test, which has been a compilation of research in the many different fields of science including; Microscopy,

Fenestra Research Labs

The World Leader In Wellness Studies

Standard Blood panel analysis, Standard Urine panel analysis, Standard Saliva panel analysis, Bio-Terrain analysis, REAMS testing by Dr. Carry Reams, Bioelectric Impedance Machine (FDA approved system), symptomology, medical diagnosis, history intakes, and general questionnaires. Each type of research provides valuable scientific data and has multiple areas of overlap, providing validation of others. It is from these works that I have compiled the standards for the Optimal Wellness Test.”

For more information, contact:

Made in USA

Forty-five day money back guarantee.  
Five year warranty against manufacturer's defects.

Information about these products has not been evaluated by the Food & Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

\*Clinical research based on 24/7 Stirwand™, The Basic Wand. Visit our website for all human clinical trials.

Stirwands™ are made from surgical instrument grade polymers.

Sold for personal use only.  
For commercial, agricultural or aquacultural use, contact:

## STIRWAND™ SELECTIONS

All wands are hydrating, oxygenating and detoxifying. Different mineral blends affect the amount of coherent energy put out by each Stirwand™, the unique enhancing benefits of each and hence the recommended time of day to use, as noted below. See also *How To Use The Stirwand™* on the next panel.

### BASIC 24/7 STIRWAND™ Blue Violet - Day or night use

For everyday use and stress relief.

### OLYMPIAN STIRWAND™ Turquoise - Daytime use recommended

For optimizing athletic performance.

### ZEN MASTER STIRWAND™ Purple - After hours use recommended

For calming, relaxation, meditation, soothing baths.

### WARM HEART STIRWAND™ Rose - Daytime use recommended

For opening the heart chakra.

### GUARDIAN STIRWAND™ Orange - Daytime use recommended

For grounding, stabilizing, and strengthening.

### ILLUMINATOR STIRWAND™ Yellow - Daytime use recommended

For stimulating mental clarity, focus, and inspiration.

### GARDENER STIRWAND™ Amber

Best for enhancing the vitality of house and garden plants as well as fresh produce. Ideal for increasing the available oxygen for fish and plant life in aquariums and ponds, fresh or saltwater. One wand per tank or 500 gallons.

### GOURMET STIRWAND™ Clear

For enhancing the flavors in food (place in or near for 1 minute) and beverages (stir to taste). Ideal for inexpensive wines. Not recommended for beer.

## HOW MUCH WATER IS ENOUGH?

Of 40,000 people involved in various studies over 8 years by Fenestra Research, all drinking enough water, 94% were found to still be dehydrated. You need to drink enough water, and it needs to be "stirred" water. To determine the number of ounces of stirred water to drink every day, simply divide your body weight in half. Drinking that amount of stirred water daily will increase hydration quickly and dramatically.

## STIRRED WATER'S STABILITY

Stabilization tests show that stirred water remains more than 99.0% stable for a minimum of 48 hours in an open container, and remains at more than 95.0% of the original chemical balance for a minimum of three months in a sealed container.

## HOW TO USE THE STIRWAND™

All wands are hydrating, oxygenating and detoxifying and can be used in all the water you drink and use - washing machines, baths, pools, spas, fish tanks, ponds & more.\*

Stir the mineral end, in a glass to a gallon, for 20 seconds, longer for a larger container, or simply leave the wand in the container, bath, pool, pond, etc. . Will not over charge the water, nor affect the life of the wand.

The Gourmet wand is best for food & beverages other than water.

All wands are good for everything, including plants - the Gardener even better.

Remember your pets, kids, wildlife and livestock too

5 Year Manufacturer's Warranty. Wash with mild soap. Do not microwave, incinerate or lose and it might outlast you.

\*Stirwand™ descriptions and suggestions for use are subjective and are not intended to represent scientific fact except for hydration, oxygenation and detoxification claims that have clinical proof.

## STIRWANDS™

*Making the water you drink count*
